LAB PROCEDURE APPROVAL WORKSHEET*

**What is your research question?**

--

**How do you intend to answer your research question?**

--

**What is/are your independent variable(s)?**

--

**How do you intend to measure/account for your independent variable(s)?**

--

**What is your dependent variable (s)?**

--

**How do you intend to measure/calculate this value?**

--

**What are your control variables?**

--

<b>How will you account for your control variables?</b>
<b>What equipment will you need for your measurements?</b>
<b>What is your plan for number of trials for each value of your independent variables and how many different values of the independent variable will you evaluate?</b>
<b>What specific safety precautions must you observe?</b>
<b>How much time do you estimate your data collection will take?</b>
<b>Is there any outside information or technical data you will need to complete your IA that you do not already have? If so, what information do you need?</b>
